

# CSE468: Assignment 1

In this folder, under the name “negative\_image.jpg”, there is the image which we took in section 1 with a negative filter applied to it. We need restore the original image using a Matlab script.

You are required (Individually) to deliver a compressed file named "assignment1.zip" which contains :

1. The script you wrote in a file named "negative\_filter.m".
2. The restored image named "positive\_selfie.jpg".

The compressed file should be delivered using the indicated form in the course web page or using the following link:

<http://mct.asu.edu.eg/cse-468-submit.html>

The deadline for receiving the assignment is Thursday 26/02/2015 @11:59pm.
