

Resource Allocation

- Any Resource will consume resources.
- The main types of resources used in projects are Equipment, Employees and Money.
- Each resource may have an upper limit, hence resource allocation is considered a key activity of project management activities

Project Manager should allocate resources on activities such that the upper limit of resources is not violated.

Activity	Predecessor	Duration	Resource 'A' consumption
A	--	5	12 hrs
B	--	7	18 hrs
C	A	9	20 hrs
D	B	3	45 hrs
E	C	2	20 hrs
F	D	8	10hrs
G	E, F	10	10hrs
